Europa-Park´s fourth winter season meets with positive response: Europa-Park extends its daily opening hours

Rust, December 16th 2004. Also Europa-Park´s fourth winter season is a complete success. This shows an annual visitor poll, which confirms that Europa-Park is a great experience also during the "magical Winter Weeks". For the first time, the winter season got the same positive rating as the summer season. The managers of Europa-Park have now decided to open Europa-Park already at 10 am (instead of 11 am) during the holidays. Thus, the visitors now have just as much time in winter as in summer to experience attractions, shows and the additional winter programme - and all this at a reduced rate. On December 24th and 25th Europa-Park will be closed for Christmas.
