Germany's biggest theme park - fantastic adventures for the whole family

Do you want to leave the daily grind behind? Do you feel like having fun again? Then Europa-Park, Germany's largest theme park, is just the place for you. Fantastic worlds are waiting to be discovered. Whether it's a rapid ride through ancient Greece on the water roller coaster "Poseidon?", a trip to the stars on the "Euro-Sat" or an expedition into the realm of the dinosaurs, Europa-Park offers unforgettable moments for all ages.

In the different European themed areas, each with its own fascinating architecture, one can find over 100 rides and glamorous shows. Whether it's watching Spanish knights in action or the international variety show, one will never be bored. All the year round, the international artists present fascinating shows on the numerous stages of Europa-Park, among them the ice-show "Surprise?" in the Swiss themed area, which is choreographed by Norbert Schramm.

To top off a day full of adventure, the 4-star Spanish theme-hotel "El Andaluz?" and the medieval castle-hotel "Castillo Alcazar?" offer overnight stays in a luxurious ambiance. Over the years, there has been a trend showing that Europa-Park tourists usually visit the park over several days. In fact, the hotel room occupation rate for the "Castillo Alcazar" and "El Andaluz" is approximately 99%. For this reason, Europa-Park has started with the construction of a third hotel. Located across from the two existing hotels, the third hotel will be built in Italian style and with 1400 beds it will also be the biggest hotel in southwest Germany.

The sensational novelty "Magic Cinema 4D?" will be opened at the beginning of the season 2003. It is situated in the French themed area and with over 400 seats it is a spectacular attraction for the whole family. A wonderful trip through the marvels of our world. Into the depths of the blue ocean with a sea turtle, through the treetops of a jungle with a little monkey and into the icy cold of the Antarctica with penguins and polar bears. In cooperation with the World Wide Fund for Nature (WWF Germany), the world's biggest independent nature conservation organization, Europa-Park presents a completely new experience in 4-D.
