### **Confertainment at Europa-Park**

**Germany's biggest theme park has developed into a first-class address for conferences and events during the past years. In 1998, Europa-Park has established a concept, which combines efficient conferences with motivating entertainment – Confertainment.**

#### **Europa-Park: More than just a theme park**

It is wrong to think that Europa-Park and its hotels are suitable only as a destination for families or groups of young people. The theme park is becoming more and more popular as a destination for conventions and events for both, business and private parties – and not only the over 100 top attractions and international shows make our guests want to come back. Well known companies from Germany and abroad make use of the attractive offer. In 2007 approximately 1,000 events were organised at Europa-Park.

#### **A variety of conference and function rooms**

Depending on the number of participants and the type of event, an appropriate setting can be chosen. Perfectly equipped conference rooms, modern communication technology and competent service guarantee that each event will be a complete success, no matter if it's a conference, workshop or seminar. The Confertainment ensures that the attendees can work in a professional and relaxed atmosphere - conferences and entertainment at the highest level. Europa-Park offers a large number of premises that create an exceptional atmosphere for presentations, speeches, lectures, workshops, seminars, anniversary celebrations, gala evenings and much more. More than 20 conference and function rooms provide space for groups from 10 to 1,400 persons.
