Best Horror-Event of the World!

The Terenzi Horror Nights have recorded a grandiose success. On 6th May 2010, the Halloween-Event of Europa-Park won the highly coveted Screemie Award in London.

Initiator Marc Terenzi received the prize in the "Magic Circle Headquarters", one of the most fascinating event-locations in London. The US-singer had brought the Terenzi Horror Nights to life in 2007, in cooperation with Michael Mack, member of the direction of Europa-Park. This Horror-Show soon turned out to be a real magnet for the audience in Germany's biggest theme park. This year's edition will start on 1st October 2010. The Terenzi Horror Nights have won the Screemie Award in the category "Best International Attraction" and got ahead of the Halloween Horror Nights of Universal Studios Florida (USA) as well as Busch Gardens Tampa (USA), Knotts Berry Farm California (USA) and Disneyland Paris.

This audience award has been assigned within the framework of the "ScareCON". The "ScareCON" is the only event in Europe that focuses on horror-attractions.

In 2010, the Terenzi Horror Nights will take place from 1st October to 7 November on select dates and plunge the visitors in their own horror movie.
