With his sharp quill, Tomi Ungerer gives birth to merry pictures on paper sheets. His world of animals invites us to smile and lets us discover human attributes hidden in animal shapes. This year's art exhibition is a tribute to the world-famous Alsatian artist who is going to celebrate his 80th birthday in 2011. The exhibition shows original drawings, collages and objects from the artist's private collection as well as a series of works owned by collectors. A lot of those works have rarely or never been exhibited in public before. The visit of the exhibition "Tomi Ungerer – the World of Animals" is included in the park admission.

Magic moments by night

Approximately 3,000 colourfully decorated fir trees, sparkling fairy-lights and cosy fireplaces guarantee countless magic moments at Europa-Park during the winter season. And at nightfall, the show highlight "Luna Magica" takes the audience into a world of water and light, before the Parade of Lights makes its way through the park at the end of an adventurous day.

And for all those, who just can't get enough of the romantic atmosphere, the four 4-star themed hotels "Colosseo", "Santa Isabel", "El Andaluz" and "Castillo Alcazar" offer heavenly overnight accommodation in a wonderful ambience. Those who want to have sweet winter dreams will feel especially comfortable in one of the Christmas rooms, where young and old spend the night surrounded by festive atmosphere and Christmas decoration. And also the Camp Resort promises cosy nights during the cold time of the year. On select dates, all adventuresome guests can stay overnight in heated log-cabins and discover the most romantic side of winter - for example in the new chieftain suite "Winnetou's Honeymoon Suite", which opens at the beginning of the winter season and offers space for up to four persons.
