For the first time in its history, Europa-Park is remaining open

Anyone who prefers not to be spoiled for choice, and can never decide between orange pumpkins or snow-covered fir trees, should mark November in their calendar. For the first time in its history, Europa-Park is remaining open between the Halloween and winter periods. 'HALLOWinter' offers the perfect mix of a grisly-yet-beautiful spookiness and wonderfully beautiful winter weeks.

From 8th to 26th November 2021 Germany's largest amusement park is going crazy! Witches wear red pointed hats next to lovingly-decorated pumpkins, while roasted almonds and mulled wine beckon in a combination of two seasons that is unique worldwide. While the construction work for the ice rink and ski slope is in progress in the Scandinavian themed area, you can cool off in the Poseidon water rollercoaster in the Greek themed area. Europa-Park is known for its diversity and attention to detail, 'HALLOWinter' proves this once again as an attractive and innovative location that offers visitors plenty of options for a short holiday.

Europa-Park is open daily from 8th to 26th November 2021 from 11am to 7pm. The classic Halloween season lasts until 7th November, with the classic winter season starting on 27th November and lasting up to and including 9th January 2022 (excl. 24/25.12.21). The demand is already high, and as an insider tip: visiting during the week is the best way to experience two seasons at once with HALLOWinter.

Entertainment is very important at Europa-Park, so it's best not to miss the spectacular shows during HALLOWinter. Some winter shows start a little earlier, offering impressive and enchanting artistry, dancing and singing.

Depending on the progress of the construction and dismantling work, individual attractions may be closed during the HALLOWinter weeks and individual shows may not take place.
